

To all potential applicants and heads of related organizations

Ryuji Kubota M.D., Ph.D.
 Director, Joint Research Center for Human Retrovirus Infection,
 Kumamoto and Kagoshima Universities

[RECRUITMENT]

Professor at the Joint Research Center for Human Retrovirus Infection,
 Kumamoto University Campus

The Joint Research Center for Human Retrovirus Infection, Kumamoto University Campus invites for applications for highly motivated researcher to develop advanced research in the area of viral infectious diseases.

The Joint Research Center for Human Retrovirus Infection was established on April 1, 2019 with the reorganization and integration of the Center for AIDS Research, Kumamoto University, and the Center for Chronic Viral Diseases, Kagoshima University. This is Japan's first joint research center across two national universities, and we are effectively utilizing the resources of both universities to promote world-class research and education based on basic research in human viral infections.

The Kumamoto University Campus of the Center is committed to developing advanced research on, but not limited to, human retroviruses and fostering next-generation researchers. Against this background, the successful candidate will be expected to conduct research in the field of human viral infections at an internationally distinguished level, and will be responsible for teaching and supervising related subjects at the graduate school. For more information about the Center, please visit our website at <https://kumamoto-u-jrchri.jp/>.
